

Changes in Wavelength Properties during Transmission

Reflection of Waves

Constructing Ray Diagrams of Waves at a Surface

Practical 9 - Reflection of Light by Difference Surfaces

Transverse Waves

Longitudinal Waves

Practical 8 - Measuring the Speed of Ripples on a Water Surface

Practical 8 - Measuring the Speed of Waves in Air

Wave Speed

Period of a Wave

Properties of Waves

Comparing Waves

The Colour of Objects

Emission and absorption of infrared radiation

Types of Electromagnetic Waves

Practical 10 - Absorption and Radiation of IR

Visible Light

Radiowaves, Microwaves and Infrared Radiation

Ultraviolet, X-rays and gamma rays

Magnification

Convex and Concave Lenses

Lenses

Uses and Application of Electromagnetic Waves

Radiation Dose
